Halloween Safety Keeps Holiday Fun

The 6th Area Support Group has designated Oct. 31 from 6 to 8 p.m. as trick-or-treating time for children in the community. Safety during this haunting occasion must be a primary concern of all. The darkness, potential adverse weather and children, who in their excitement forget the safety precautions they have been taught, increase the risk for accidents.

The following are some useful safety tips for a safe and fun Halloween: Carry a flashlight or glow stick. Walk-don't run. Stay on the sidewalks; don't cut across yards or driveways. Make sure costumes don't drag on the ground and that shoes fit (even if they don't go with the costume). Wear clothing with reflective markings or tape. Avoid wearing masks while walking from house to house. And remember that children shouldn't go trick-or-treating without an adult or teenager to accompany them. For more safety tips take time to check out the many Halloween Web sites online.

Make a World of Difference

Continuing the popular theme, Make a World of Difference, the Fall 1999 Combined Federal Campaign remains the easiest and most cost-effective way for donors to give to the charities of their choice.

The CFC is the annual charity drive of the U.S. military and federal employees. Donors have the opportunity to designate contributions through payroll deduction – a simple and extremely cost-effective way to support programs and issues in which they believe.

The Combined Federal Campaign-Overseas raised \$8.5 million in 1998, a 9.47 percent increase from 1997. Continue the trend and join with millions of other givers stateside to create the most effective, successful charitable giving campaign in the world. The campaign continues through mid-November. Call your unit representative for details.

CPSC Warning for Parents of Infants

A U.S. Consumer Product Safety Commission study published in the October issue of the Archives of Pediatrics and Adolescent Medicine found that placing babies to sleep in adult beds puts them at risk of suffocation or strangulation.

A review of incident data from January 1990 to December 1997 linked adult beds to at least 515 baby deaths. CPSC's study is the first to quantify the number of fatalities resulting from the practice of co-sleeping with babies. Of the 515 deaths, 121 were reported to be due to a parent, caregiver or sibling rolling on top of or against the baby while sleeping. More than three-quarters of these deaths occurred to infants younger than 3 months. The other 394 deaths resulted from suffocation or from strangulation caused by entrapment of the child's head in various structures of the bed. Entrapments occurred between the mattress and the wall, bed frame, headboard, footboard, bed railings or adjacent furniture. One of the most tragic aspects of these deaths is that they are largely preventable. In many cases, the adult placing the baby in the adult bed was unaware of or underestimated the danger.

Turn Back Your Clocks

Don't forget to turn your clocks back one hour Oct. 30 before you go to bed. Daylight savings time begins Oct. 31 at 2 a.m.

The basic rules for donating leave are: Only appropriated-fund annual leave may be donated; NAF, AAFES and Local National employees are ineligible to donate leave; donated leave cannot exceed the donor's current annual leave balance or amount to more than one-half of the leave the employee would accrue during the leave year of the donation; and donated leave may be returned to donors if it exceeds the recipient's needs.
